Bodysuits/Onesies

The one-piece bodysuit or onesie is designed for people with dementia, Alzheimer's or behavioral disorders and those having difficulty with dressing. Some individuals are predisposed with urinary and fecal incontinences. The onesie makes self-undressing impossible preventing picking, smearing and soiling of the surrounding area. These form-fitting 100% cotton garments have back zippers and snap or zipper closures for easy changing. Available for children, women and men (unisex).

The one-piece jumpsuit has a back zipper that goes to the nape of the neck preventing the potential for discomfort or injury. It was designed for individuals with dementia, Alzheimer's and those who have a tendency to undress. They prevent access to one's diapers eliminating picking or smearing. The garments have an elastic waist band, and a zippered back and crotch for easy changing. Available for children, women and men (unisex). Available in 8 colors.

4 care's Solutions

*ALTERNATIVE: DESIGNER BODYSUIT/PAJAMAS

Designer jumpsuit/Pajamas

4Care puts an end to the belief that special clothing does not look good or stylish. These designer jumpsuits create a pajama-like look that is comfortable and fashionable. The one-piece, jumpsuits are a godsend for restless sleepers and individuals who self-undress. They provide easy access for changing and clearing, thereby eliminating the wearer's access to incontinence material. The open-toe jumpsuits have back zippers; some have crotch and inner leg zippers. Available in 100% cotton in multiple colors and patterns.

Rip-resistant bodysuits

The one-piece rip-resistant bodysuits are recommended for individuals with aggressive behavioral problems and individuals who self-undress and tear their clothing. The bodysuit has a back zipper secured with a push button or ring lock at the nape of the neck. The garments are made from tear-proof material with reinforced seams. Available in various styles and colors - unisex.

Nursing Blanket

The terry quilt is similar to a fitted bed sheet with a center zipper for access and two shoulder zippers. Additionally, there are two side zippers located on the left side of the blanket. The arms and head are outside the blanket. An individual cannot fall or get out of bed without assistance.

9500 HOSPITAL BED SIZE
Prevents undressing, falling out the bed and incontinence products of removing. Ensures the person is always covered.
